PART I--FINANCIAL INFORMATION

Item 1. Financial Statements.

Financial Statements attached.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The Fund posted total assets of P220.34 million as of June 30, 2019 compared to P213.70 million reported as of December 31, 2018. It went up by 3.11% or P6.64 million. Changes in assets were recorded in the following accounts:

- Cash and cash equivalents consisted of cash in bank and short term deposits with local banks. As of June 30, 2019, cash in bank and short term deposits amounted to P3.08 million and P14.00 million, respectively. It increased by P8.38 million or 96.44%, from P8.69 million as of December 31, 2018, attributed mainly to the proceeds from selling of various equities.
- Financial assets at fair value through profit or loss (FVPTL) consisted of listed equity securities and unit investment trust fund (UITF) held for trading. As June 30, 2019, FVPTL amounted to P121.41 million, declining by P3.54 million or 2.83% from P124.95 million as of December 31, 2018. Whereas, UITF increased by P1.79 million or 2.24%, to P81.80 million as of June 30, 2019 from P80.01 million as of December 31, 2018 due to the improvement in the market prices of these investments. Investment in listed equity securities and UITFs accounts represent 55.10% and 37.12%, respectively of the Fund's total assets as of June 30, 2019.

Total liabilities decreased by 39.23% or P0.71 million from P1.82 million as of December 31, 2018 to P1.10 million as of June 30, 2019, due to the payment of management fee payable and other operating expenses.

Total equity amounted to P219.24 million from P211.88 million as of December 31, 2018, or an improvement of P7.35 million or 3.47%. Net asset value increased to P4.37 per share as of June 30, 2019 from P4.22 per share as of December 31, 2018.

For the six months ended June 30, 2019, the Fund registered a gross investment income of P10.78 million; growing by 146.94% or P33.74 million from the P22.96 million gross investment loss reported a year ago. The increase was largely because of the following:

- Due to the relatively stable market prices of equity investments, the Fund was able to realize a net gain from trading and investment securities in the amount of P8.97 million, a reversal from the P24.84 million in losses posted in the same period last year.
- Dividend income from equity investments was lower at P1.77 million, down by P0.09 million or 4.97% from P1.86 million in the same period last year.

Total operating expenses amounted to P3.41 million as of June 30, 2019, higher by 12.11% or P0.37 million from P3.04 million last year. This was mainly attributed to higher trade related expenses such as commission and other transaction fees which increased to P0.38 million, from P0.02 million over the same period last year. Likewise, miscellaneous expenses were recorded at P0.66 million, larger by P0.35 million or 112.76% as additional expenses were incurred during the period. In contrast, management fee dropped to P0.84 million, down by P0.28 million or 24.75% from P1.12 million of last year, due to the reduction in fees from 1.00% to 0.50%.

As a result of the foregoing, the Fund recorded a net income of P7.35 million as of the second quarter, a complete reversal from the P26.01 million net loss that was recorded previously.

Key Performance Indicators:

- NAV growth – NAV growth of FFI should at least be in line with other similarly managed funds. Total net asset value of FFI increased by P7.35 million or 3.47%, from P211.88 million as of December 31, 2018 to P219.24 million as of June 30, 2019.
- Income (or Loss) per share – income (or loss) per share is computed by dividing the Net Income by the weighted average number of common shares outstanding. As of June 30, 2019, the Fund registered a net income of P7.35 million compared to the P26.01 net loss reported in 2018. This resulted to net earnings per share of P0.15 versus loss per share of P0.52 in the same period of 2018.
- Portfolio Quality – The Funds' portfolio should, at all times, adhere to the investment parameters as indicated in the Funds' prospectus. The Fund invests in a mix of short term investments and listed equities.
- Expense Ratio – expense ratio is computed as Operating Expense divided by Net Asset Value (NAV). For the period June 30, 2019, the Fund's expense ratio went up to 1.56% from 1.46% for the same period in 2018 resulting from higher operating expense by 12.11% compared with the 3.47% increase in NAV.
- Market Price (MP) to NAV – As of the end of second quarter of 2019, the Fund's market price was at P7.71 per share against the NAV per share of P4.37 resulting to a premium of 76.43% per share. This was however lower than the 107.11% premium recorded at the end of 2018.

PART I-FINANCIAL INFORMATION

Item 1. Financial Statements Required Under SRC Rule 68.1

Notes to Interim Financial Statements:

As of June 30, 2019

1. The interim financial reports were prepared in accordance with the accounting standards generally accepted in the Philippines
2. The accounting policies adopted by the Fund are consistent with those of the previous financial year except for the following new and amended PFRSs, PASs and Philippine Interpretations which were adopted as of January 1, 2018. Adoption of these pronouncements did not have any significant impact on the Fund's financial position or performance, unless otherwise indicated.

- Amendments to PFRS 2, *Share-based Payment, Classification and Measurement of Share-based Payment Transactions*
- Amendments to PFRS 4, *Applying PFRS 9 Financial Instruments with PFRS 4 Insurance Contracts*
- Amendments to PAS 28, *Investments in Associates and Joint Ventures, Measuring an Associate or Joint Venture at Fair Value (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)*
- Amendments to PAS 40, *Investment Property, Transfers of Investment Property*
- Philippine Interpretation IFRIC-22, *Foreign Currency Transactions and Advance Consideration*
- PFRS 9, *Financial Instruments*
PFRS 9 reflects all phases of the financial instruments project and replaces PAS 39, *Financial*

Instruments: Recognition and Measurement and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting.

The Fund has adopted PFRS 9 effective January 1, 2018 using the modified retrospective approach. The Fund has not restated the comparative information, which continued to be reported under PAS 39.

Cash and cash equivalents, dividend receivable and due from broker which were previously classified as "Loans and Receivables" under PAS 39, are continued to be carried at amortized cost under the category "Financial assets at amortized cost", while financial assets held for trading remained in the category "Financial assets at fair value through profit or loss", upon adoption of PFRS 9.

The adoption of PFRS 9's Expected Credit Loss (ECL) did not have significant impact to the Fund's financial assets at amortized cost, which include cash and cash equivalents, dividend receivable and due from broker since these assets are considered to have low credit risk and the probability of default of the counterparties is minimal.

The Fund's financial liabilities which include accrued and other expenses payable remained to be classified at amortized cost upon transition.

- PFRS 15, *Revenue from Contracts with Customers*
PFRS 15 supersedes PAS 11 *Construction Contracts*, PAS 18 *Revenue* and related Interpretations and it applies, with limited exceptions, to all revenue arising from contracts with customers.

PFRS 15 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

PFRS 15 requires entities to exercise judgments, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The adoption of PFRS 15 did not have significant impact on the Fund's financial statements since the Fund's revenue comprise of interest income and dividend income which are out of scope of PFRS 15 (scoped in under PFRS 9).

3. There were no items of unusual nature, size or incident, which occurred in the interim period affecting assets, liabilities, equity, net income or cash flow of the Fund.
4. The preparation of financial statements in compliance with PFRS requires the Fund to make use of estimated, assumption and judgments that affect the reported amounts of assets, liabilities, income and expenses and the disclosures of contingent assets and liabilities, if any. Future events may occur which can cause the assumptions used in arriving at the estimates to change. The effects of any change in estimated are reflected in the financial statements as they become reasonably determinable.
5. There were no issuances, repurchases, and repayments of debt and equity securities that have a material effect on the interim financial report.
6. For the period January 1 up to June 30, 2019, no cash dividends were declared by the Board of Directors.
7. For management purposes, the Fund is organizes into one main operating segment, which invests in equity securities. All of the Fund's activities are interrelated and interdependent. Accordingly, all significant reporting decisions are based upon the analysis of the Fund as one segment. The financial results from this segment are equivalent to the financial statements of the Fund as a whole.
8. Contingent liabilities are not recognized in the financial statements but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.
9. There are no material events subsequent to the end of the interim period that have not been reflected in the financial statements for the interim period.

Pronouncements issued but not yet effective are listed below. The Fund intends to adopt the following pronouncements when they become effective. Adoption of these pronouncements is not expected to have a significant impact on the Fund's financial statements, unless otherwise indicated.

Effective beginning on or after January 1, 2019

- Amendments to PFRS 9, *Prepayment Features with Negative Compensation*
- PFRS 16, *Leases*

- Philippine Interpretation IFRIC-23, *Uncertainty over Income Tax Treatments*
