PART I – BUSINESS AND GENERAL INFORMATION

DESCRIPTION OF BUSINESS

1. Business Development

Filipino Fund, Inc. (the “Fund” or “FFI”) was originally incorporated as a closed-end investment company on May 9, 1991. On March 28, 1995, the Fund was registered with the Securities and Exchange Commission (“SEC”) under Republic Act No. 2629, or the Investment Company Act of 1960. In November 2002, its shareholders approved the proposal to re-organize the Fund to provide shareholders with a liquidity vehicle to cash in on their investment. On March 14, 2003, the SEC approved the financial restructuring of FFI. After the requisite ten-day trading suspension, the new FFI began trading on March 31, 2004. Since then, the Fund still continues to trade in the Philippine Stock Exchange (“PSE”).

The post-restructuring investment objective of the Fund is to provide original FFI investors with a repackaged investment which would now have a more responsive net asset value per share which should correspond to an improved share price in the stock exchange.

2. Business of Issuer

FFI is a corporation listed in the PSE. It has no business operations save for the normal trading of its shares in the PSE and the maintenance of its investment portfolio.

A total of 70.42% of FFI’s total outstanding shares of 23,846,850 was acquired by Vicsal Development Corporation (“VDC”), a holding company of the Metro Gaisano group, in September 2003 through a Tender Offer and was increased by stock dividends on February 24, 2014. At present, VDC remains the majority shareholder of FFI with 35,623,404 common shares representing 71.01% of FFI’s total outstanding capital stock.

3. Principal products or services and distribution methods

FFI remains listed and traded in the PSE where its shares may be bought and sold through any of the PSE member stockbrokers.

As of December 31, 2024, the total investments in equity holdings accounts for 97.15% of total assets. Income contributions, from this segment of the portfolio, were through cash dividends of Php8.34 million and net trading gains of Php16.83 million.

As of December 31, 2024, the total investments in unit investment trust funds (“UITFs”) accounts for 2.11% of the total company resources with net trading gains of Php0.72 million.

FFI’s services include investments in equities and UITFs. There are no distribution methods adopted by FFI as it does not deal or trade in goods or products.

4. Competition

As a listed company, FFI competes with the other listed shares in the stock market.

Like most other mutual funds, FFI’s fund manager possesses the necessary experience, training, skill and expertise in assessing financial investments. Also, FFI’s relatively smaller size allows it to be more flexible in navigating the financial markets. Furthermore, FFI can easily change its strategy to adopt to changes in market conditions. Unlike pure equity funds (which suffer when the

stock market is in a downtrend) or pure fixed income funds (which miss out when the stock market booms or suffer when interest rates rise quickly) or even balanced funds (which, for some, have to maintain a certain ratio or have equity limits), FFI's strategy can change more freely.

5. Transactions with and/or dependence on related parties

FFI's transactions, and thus, dependence would be mainly by way of the maintenance of the investment portfolio by the Fund Manager, AB Capital & Investment Corporation ("ABCIC").

6. Effect of existing or probable governmental regulations on the business.

FFI maintains the belief that government regulations are intended to strengthen the industry for the benefit of the investing public and thus will comply with the regulations imposed as may be instituted by the regulatory authorities.

7. Major risk/s involved in the business of the company.

The Fund has no subsidiary and is primarily exposed to Market Risk.

Market Risk is the risk of the change in the fair value of the financial instruments from fluctuations in market interest rates (fair value interest risk) and market prices (equity price risk), whether such change in the price is caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market.

The Fund structures the level of market risk it accepts through a market risk policy that determines what constitutes market risk for the Fund; the basis used to determine the fair value of the financial assets and liabilities; the asset allocation and duration limit based on the Fund's chosen benchmark; diversification benchmarks by type of instrument; sets out the net exposure limits by each counterparty or group of counterparties and industry segments; reporting of market risk exposure and breaches to the monitoring authority; monitoring compliance with market risk policy and review of market risk policy for pertinence and changing environment.

Other than Market Risk, the Fund may also be exposed to Credit Risk and Liquidity.

Credit Risk

Credit Risk is the financial loss to the Fund if the counterparty to a financial instrument fails to meet its contractual obligations. The Fund invests in local equities and unit investment trust funds wherein the risk of default is considered minimal.

Liquidity Risk

Liquidity Risk or funding risk is the risk that the Fund will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity may result from inability to sell financial asset quickly at their fair value; counterparty failing on repayment of a contractual obligation; or the inability to generate cash inflows as anticipated. The Fund's liquidity risk is managed by holding sufficient amounts of liquid assets and with appropriate credit quality to ensure that short-term funding requirements are met. As part of the Fund's risk management, cash in bank is available on demand, receivables are collected monthly and financial assets at fair value through profit or loss can be readily disposed of whenever the need for funding arises. The Fund's total financial liabilities mature within three months and are noninterest-bearing.

8. Number of employees

FFI does not have employees of its own, as the management of the Fund, including its administrative operations, is completely handled by its Fund Manager, ABCIC.

9. Operation, investment objectives, and plans

The investment objective of FFI is to provide FFI investors with an investment that corresponds to an improved share price in the PSE. It has no business operations except for the normal trading of its shares in the PSE.

10. Management contracts

FFI has entered into an Investment Management and Distribution Agreement (IMDA) with ABCIC, a corporation registered with the SEC primarily engaged in business as an investment house. The Fund pays management fee, on a quarterly basis, equivalent to 1.00% per annum of the average net asset value of the Fund at the beginning and the end of quarter period. The agreement further provides that the Fund shall reimburse the operating expenses actually paid or incurred by ABCIC in the performance of services as an investment manager.

11. Sale of unregistered securities or exempt securities

All shares of stock issued by FFI are duly registered. There are no recent sales of unregistered securities.

12. Family relationships

Directors Andrew Jason G. Gaisano and Harvey Maxwell G. Gaisano are siblings. There are no other relevant family relationships.

PROPERTIES

FFI has no existing real properties.

LEGAL PROCEEDINGS

There is no material pending legal proceedings to which FFI is subject.

SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

(Matters submitted during the fourth quarter of the fiscal year covered by this report)

There were no matters submitted to a vote of security holders, through the solicitation of proxies or otherwise, during the fourth quarter of the fiscal year covered by this report.

PART II – OPERATIONAL AND FINANCIAL INFORMATION

MARKET FOR ISSUER'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

1. Market Information

The Fund's shares, being listed, are traded in the PSE through the PSE member stockbrokers.

Market price at the end of the day is based on the PSE's closing price (in Php/share) for the Fund.

2. Dividends and exempt transaction

On March 26, 2018, the Board of Directors of the Company unanimously declared a cash dividend of Php0.08 per share or amounting to Php4,013,391.76 to all stockholders of record on the basis of the outstanding shares owned by them on the following dates:

Record Date – April 23, 2018

Payment Date – May 4, 2018

No cash/stock/property dividends were declared in 2024, 2023, 2022, 2021, 2020, and 2019.

The Company's declaration of cash/stock/property dividends in the future will depend on the Company's investment requirements, and unrestricted retained earnings, at the relevant time. This is the only restriction which may limit the Company's ability to pay/declare cash/stock/property dividends.

3. Number of Holders

FFI has a total of 5,322 stockholders owning at least one (1) share as of December 31, 2024.

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Key Performance Indicators:

- NAV Growth – The Total Net Asset Value (“NAV”) of FFI in 2024 increased by 9.30%, an increase of Php19.92 million from 2023. In 2023, NAV is increased by 7.46%, an increase of Php14.87 million from 2022.

- b. Earnings or (Loss) per Share – The Earnings or (Loss) per Share is computed as Net Investment Income or (Loss) divided by the weighted average number of shares outstanding. As of the end of 2024, the Company registered a net income of Php19.92 million from Php14.87 million of the previous year. This translates to an income per share of Php0.40 in 2024 from Php0.30 per share of the prior year.
- c. Portfolio Quality – The Funds' portfolio should, at all times, adhere to the investment parameters as indicated in the Funds' prospectus. The Fund invests in a mix of unit investment trust funds and local equities.
- d. Expense Ratio – expense ratio is computed as Operating Expense divided by Average Net Asset Value (NAV). As of the end of 2024, the Fund's expense ratio went down to 2.67% from 2.85% for the same period in 2023.
- e. Performance versus competition – In 2024, FFI ranked 4th among other equity mutual funds with a full year return of 9.30%. In 2023, FFI ranked 3rd among other equity mutual funds with a full year return of 7.46%.
- f. Market Price (MP) to Net Asset Value (NAV) - Premium of MP to NAV as of the end of 2024 is at 37.47% vs discount of 1.65% recorded in 2023.

Year 2024

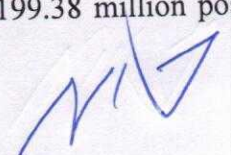

Total assets of the Fund increased to P236.06 million as of December 31, 2024 from P216.04 million of the previous year, an increment of 9.27% or P20.03 million. Total receivables decreased to P0.07 million or 7.7% from P0.88 million, primarily due to the collection of trade receivable resulting from sale of equity securities. Moreover, cash increased by P0.02 million or 2.6%, from P0.93 million to P0.95 million, mainly due from the withdrawals of investment to cover current obligation. Financial assets at fair value through profit or loss were valued at P234.30 million, boosted by P20.07 million or 9.4% from P214.23 million as of December 31, 2023, due to addition of stocks combined with an improvement in stock market prices. Deducting liabilities of P1.90 million, net assets were valued at 234.16 million, an increase of P19.92 million or 9.30% compared to the P214.25 million posted over the same period last year. This translated to a net asset value per share (NAVPS) of Php4.6676 and Php4.2706 in 2024 and 2023, respectively.

The Fund posted a gross investment income of P25.89 million in 2024, an increase of 24.7% or P5.13 million from the gross investment of P20.76 million in 2023. This was mostly attributed to the P8.34 million dividend income and P17.55 million trading gains. Total operating expenses incurred during the year was slightly higher at P5.98 million, an increase of P0.08 million or 1.34% mainly due to higher management fee incurred during the period. The Fund ended the year with a net investment income of P19.92 million.

As of December 31, 2024, investment in listed equities represented 97.15% of total assets, leaving investment in Unit Investment Trust Fund at 2.11% and liquid assets at 0.74% of total company resources.

Year 2023

Total assets of the Fund Increased to P216.04 million as of December 31, 2023 from P201.50 million of the previous year, an increment of 7.21% or P14.54 million. Total receivables decreased to P1.88 million or 68.19% from P2.77 million, primarily due to the collection of trade receivable resulting from sale of equity securities. Moreover, cash decreased by P14.80 million or 94.10%, from P15.73 million to P0.93 million, mainly due to reinvestment of available funds to listed equities. Financial assets at fair value through profit or loss were valued at P214.23 million, boosted by P31.23 million or 17.07% from P183.00 million as of December 31, 2022, due to addition of stocks combined with an improvement in stock market prices. Deducting liabilities of P1.79 million, net assets were valued at 214.25 million, an increase of P14.87 million or 7.46% compared to the P199.38 million posted

over the same period last year. This translated to a net asset value per share (NAVPS) of Php4.2706 and Php3.9743 in 2023 and 2022, respectively.

The Fund posted a gross investment income of P20.76 million in 2023, a complete reversal from the gross investment loss of P0.25 million in 2022. This was mostly attributed to the P11.27 million dividend income and P9.49 million trading gains. Total operating expenses incurred during the year was slightly higher at P5.90 million, an increase of P0.09 million or 1.55% mainly due to higher operating expenses incurred during the period. With the provision for income tax of P0.001 million, the Fund ended the year with a net investment income of P14.87 million.

As of December 31, 2023, investment in listed equities represented 94.43% of total assets, leaving investment in Unit Investment Trust Fund at 4.73% and liquid assets at 0.84% of total company resources.

Year 2022

Total assets of the Fund decreased to Php201.50 million as of December 31, 2022 from Php207.62 million of the previous year, a decrement of 2.95% or Php6.12 million. Total receivables went down to Php2.77 million from Php15.97 million, arising mostly from the trade of equity securities, translating to a decrease of Php13.20 million or 82.65% of the previous year's receivables. Moreover, cash increased by Php3.34 million or 26.96%, from Php12.39 million to Php15.73 million, mainly due to collections of cash dividends from various securities. Financial assets at fair value through profit or loss were valued at Php183 million, boosted by Php3.74 million or 2.09% from Php179.26 million as of December 31, 2021. Deducting liabilities of Php2.12 million, net assets were valued at Php199.38 million, a decrease of Php6.06 million compared to the Php205.44 million posted over the same period last year. This translated to a net asset value per share (NAVPS) of Php3.9743 and Php4.0952 in 2022 and 2021, respectively.

The Fund posted a gross investment loss of Php0.25 million in 2022, a complete reversal from the gross investment income of Php9.82 million in 2021. This was mostly attributed to the Php8.62 million in trading loss experienced during the year less total dividend earned at Php8.36 million and interest from deposits at Php0.01 million. Total operating expenses incurred during the year was relatively higher at Php5.81 million, an increase of Php0.38 million or 7.00% mainly due to higher operating expenses incurred during the period. Higher expenses were particularly noted in management fee and commission and other transaction fees. With the provision for income tax of Php0.002 million, the Fund ended the year with a net investment loss of Php6.06 million.

As of December 31, 2022, investment in listed equities represented 87.95% of total assets, leaving investment in Unit Investment Trust Fund at 2.86% and liquid assets at 9.18% of total company resources.

SIGNIFICANT EMPLOYEE

FFI does not have employees of its own since management of the Fund, which includes its administrative operations, is completely being handled by its fund manager, ABCIC.

Additional Information required under Annex C of SRC Rule12:

- ☐ The incorporators of FFI are Mr. Fernando Zobel de Ayala, Mr. Luciano E. Salazar, Mr. Felipe A. Eñage, Mr. Mauro B. Blardony, Jr. and Mr. Eduardo U. Miranda.
- ☐ Messrs. Bernardo M. Villegas and Gregorio T. Yu are the independent directors of the Fund. An independent director is a person not having any relationship or position in the Fund, or in parties related to the Fund, the holding of which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director, in compliance with Section 38 of the Securities Regulation Code.
- ☐ Each Director shall serve for a term of (one) 1 year from his election (excluding those serving the unexpired terms of resigned directors) and until his successor has been duly elected and qualified, provided, however, that any director may be removed from office at any time with or without cause by a three-fourths ($\frac{3}{4}$) vote of the subscribed capital stock entitled to vote.
- ☐ Incumbent directors Andrew Jason G. Gaisano and Harvey Maxwell G. Gaisano are siblings.
- ☐ No member of the Board of FFI has been the subject of any legal/criminal proceedings for the past five years.
 - a. Any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;

None.
 - b. Any conviction by final judgment, including the nature of the offense, in a criminal proceeding, domestic or foreign, or being subject to a pending criminal, domestic or foreign, excluding traffic violations and other minor offenses;

None.
 - c. Being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending, or otherwise limiting his involvement in any

type of business, securities, commodities or banking activities; and

None.

- d. Being found by a domestic or foreign court of competent jurisdiction (in a civil action), the Commission or comparable foreign body, or a domestic or foreign Exchange or other organized trading market or self-regulatory organization, to have violated a securities or commodities law or regulation and the judgment has not been reversed, suspended, or vacated.

None.

CHANGES IN CONTROL

There are no existing arrangements which may result in a change in control of FFI.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Please refer to the Note 18 of the Financial Statements for the Related Party Transactions.

PART IV – CORPORATE GOVERNANCE

COMPLIANCE WITH LEADING PRACTICE ON CORPORATE GOVERNANCE

FFI has adopted a Manual of Corporate Governance ever since the SEC has mandated this requirement. The said Manual was amended on September 30, 2010 and was further supplemented on March 21, 2011 in compliance with the directive of the Securities and Exchange Commission. FFI has also adopted an Anti-Money Laundering Operating Manual on September 30, 2010. On September 24, 2012, FFI has approved the Charter for its Audit Committee pursuant to the SEC Memorandum Circular No. 4, series of 2012.

On December 17, 2014, FFI approved the changes in the Third Amended Manual on Corporate Governance pursuant to SEC Memorandum Circular No. 9, Series of 2014. On April 7, 2017, FFI has approved its Fourth Amended Manual on Corporate Governance in accordance with SEC Memorandum Circular No. 19 Series of 2016. Finally, on June 22, 2020, FFI approved its Fifth Amended Manual on Corporate Governance to comply with SEC Memorandum Circular No. 24 series of 2019.

FFI has also adopted the following policies:

1. Charter of the Board of Directors
2. Code of Business Conduct and Ethics
3. Nomination Committee Charter
4. Anti-Corruption and Bribery Policy

5. Whistle Blowing Policy
6. Data Privacy Policy (pursuant to the Data Privacy Act of 2012)
7. Policy on Related Party Transactions

Since FFI has no employees, its Fund Manager, ABCIC, through its Compliance Officer, continually monitors the actions of, and ensures the compliance by, ABCIC employees responsible for the management of FFI.

No deviations from the Manuals of FFI on Corporate Governance and Anti-Money Laundering have been observed.

The Fund Manager, ABCIC, through its Compliance Officer, is continually updated with the latest provisions of corporate governance and will suggest any relevant additions or deletions to management.

EXTERNAL AUDIT FEES

Audit fees for fiscal years 2024 and 2023 amounted to Php371,000.00 and Php371,000.00, respectively, exclusive of VAT and out of pocket expenses. The Company did not avail of other services from the external auditor for 2024 and 2023.

The Audit Committee approves any engagement for the services of the external auditor. After reviewing the need for the services of the auditor, the Audit Committee reviews the engagement proposal submitted. The Audit Committee then agrees on the fees to be charged by the external auditors.

FOREIGN ACCOUNT TAX COMPLIANCE ACT (FATCA)

ABCIC, being the lead foreign financial institution of an Expanded Affiliate Group (EAG), has created a FATCA account for FFI. FFI has been registered since June 26, 2014 and has been issued a Global Intermediary Identification Number (GIIN) in compliance with FATCA requirements and the SEC Memorandum Circular No. 8-2014.

FFI, in coordination with its Fund Manager, ABCIC, is regularly reviewing its policies and systems to enable it to comply with the FATCA requirement.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Filipino Fund, Inc. (the Fund), which comprise the statements of financial position, as at December 31, 2024 and 2023, and the statements of comprehensive income, the statements of changes in equity and the statements of cash flows, for each of the three years in the period ended December 31, 2024, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements are presented fairly, in all material respects. The financial position of the Fund, as at December 31, 2024 and 2023, and its financial performance and cash flows, for each of the three years in the period ended December 31, 2024, are in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities, under those standards, are further described in the Auditor's Responsibilities for the Audit of the Financial Statements Section of our report. We are independent of the Fund, in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements which are relevant to our audit of financial statements in the Philippines, and we fulfill our other ethical responsibilities in accordance with those requirements and with the Code of Ethics. We believe that all audit evidences we obtained are sufficient and appropriate to provide bases for our opinion.

Key Audit Matters

Key audit matters are those matters, which in our professional judgment, are of most significance in our audit of financial statements of the current period. We have determined that there are no key audit matters to report.

Other Information

Management is responsible for the other information. The other information comprises information included in Securities and Exchange Commission (SEC) Form 20-IS (Definitive Information Statement), SEC Form 17-A and the Annual Report for the year ended December 31, 2024, but does not include financial statements and our auditor's report thereon. We obtained the SEC Form 17-A prior to the date of our auditor's report, and we expect to obtain SEC Form 20-IS (Definitive Information Statement), and the Annual Report for the year ended December 31, 2024 after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information, and we will not express any form of assurance/conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of the auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those In-Charged of Governance for the Financial Statements

The management is responsible for the preparation and fair presentation of financial statements, in accordance with PFRS Accounting Standards, and for such internal control, as what the management determines necessary to enable the preparation of financial statements free from material misstatement, whether due to fraud or error.

In preparing financial statements, the management is responsible for (1) assessing the Fund's ability to continue as a going concern, (2) disclosing, as applicable, matters related to going concern, and (3) using the going concern basis of accounting unless they either intend to liquidate the Fund, to cease operations or has no realistic alternative but to do so.

Those in-charged of governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether financial statements, as a whole, is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit, conducted in accordance with PSAs, always detects material misstatements when they exist. Misstatements might arise from fraud or error and are considered material if, individually or in the aggregate, they can reasonably be expected to influence economic decisions of users taken on the basis of these financial statements.

As part of the audit, in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess risks of material misstatements in financial statements, whether due to fraud or error. We design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures which are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used, the reasonableness of accounting estimates, and the related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting, and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report on related disclosures of financial statements. Or, if disclosures are inadequate, we modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of financial statements, including corresponding disclosures, and whether financial statements represent underlying transactions and events in a manner that achieves fair presentation.

We communicate to those in-charged of governance regarding, among other matters, the planned scope and timing of the audit, and significant audit findings, including any significant deficiency in the internal control that we identify during our audit.

We also provide, to those in-charged of governance, a statement that we complied with relevant ethical requirements regarding independence and communicate to them all relationships and other matters which may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated to those in-charged of governance, we determine matters which are of most significance in the audit of financial statements of the current period, and therefore, deemed as key audit matters. We describe those matters in our auditor's report unless a law or a regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that same should not be communicated in our report because adverse consequences of doing so would reasonably be expected to outweigh public interest benefits of such communication.

Report on the Supplementary Information Required Under Revenue Regulations 15-2010

Our audits were conducted for the purpose of forming an opinion on basic financial statements, taken as a whole. The supplementary information, required under Revenue Regulations 15-2010, under Note 21 of the notes to financial statements, is presented for purposes of filing to the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such information is the responsibility of the management of the Fund. The information was subjected to auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to basic financial statements, taken as a whole.

The engagement partner of the audit, resulting in this independent auditor's report, is Bernalette L. Ramos.

FILIPINO FUND, INC.

NOTES TO FINANCIAL STATEMENTS

1. Corporate Information

Filipino Fund, Inc. (the Fund) was incorporated in the Philippines on May 9, 1991 primarily to establish and carry on the business of a closed-end investment company. On March 28, 1995, the Fund was registered with the Securities and Exchange Commission (SEC) under the Investment Company Act of 1960, or Republic Act (R.A.) No. 2629, and the Revised Securities Act, also known as Batas Pambansa Blg. 178.

The Fund's investment manager is AB Capital and Investment Corporation (ABCIC), a corporation registered with the SEC, licensed to deal and trade in equity and debt securities and other financial instruments traded in the Philippine Stock Exchange (PSE).

The Fund's principal place of business is at Units 1210-1212, 12F, PSE Tower, 5th Avenue corner 28th Street, Bonifacio Global City, Taguig City.

The Fund is 71% owned by its ultimate parent company, Vicsal Development Corporation (VDC), a corporation duly organized in the Philippines to engage in buying, selling, distributing and marketing at wholesale and retail in so far as may be permitted by law all kinds of goods, commodities and merchandise of every kind.

2. Summary of Material Accounting Policies

Basis of Preparation

The Fund's financial statements are prepared at historical cost, except for financial assets at fair value through profit or loss (FVTPL) which are measured at fair value. Financial statements are presented in Philippine peso, the Fund's functional currency.

All values are rounded to the nearest peso except when otherwise indicated.

Statement of Compliance

The financial statements of the Fund are prepared in compliance to Philippine Financial Reporting Standards (PFRSs).

Changes in Accounting Policies

Accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective in 2024. Adoption of these pronouncements did not have any significant impact in the Fund's financial position or performance.

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*
- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*
- Amendments to PAS 7 and PFRS 7, *Disclosures: Supplier Finance Arrangements*

Material Accounting Policies

Cash

Cash includes cash in banks and is subject to insignificant risk of changes in value.

Fair Value Measurement

The Fund measures certain financial instruments, at fair value, at each statement of financial position date.

Fair value is the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value of an asset or a liability is measured using the assumption of what market participants would use when pricing an asset or a liability, assuming that market participants act in their economic best interest.

If an asset or a liability, measured at fair value, has a bid price and has an ask price, the price within the bid-ask spread, with the most representative of fair value in the circumstances, shall be used to measure fair value regardless of where the input is categorized within the fair value hierarchy.

For purposes of fair value disclosures, the Fund determined classes of assets and liabilities, on the basis of their nature, characteristics and risks, and the level of hierarchy (see Note 5).

Financial Instruments - Initial Recognition and Subsequent Measurement

Date of recognition

The Fund recognizes a financial asset or a financial liability, in the statement of financial position, when it becomes a party to the contractual provisions of the instrument. Purchase or sale of a financial asset that requires delivery of such asset, within the time frame established by regulation or convention in the marketplace, are recognized on the transaction date. Securities are recognized on trade date.

Initial recognition of financial instruments

All financial instruments are initially recognized at fair value. Except for financial assets and liabilities at fair value through profit or loss (FVTPL), the initial measurement of financial assets and liabilities includes transaction costs.

Classification and Subsequent Measurement of financial instruments

Classification of financial assets

Financial assets are classified in their entirety, based on their contractual cash flow characteristics and the Fund's business model for managing such financial assets. The Fund classifies its financial assets under the following categories: financial assets at fair value through profit or loss (FVTPL), fair value through other comprehensive income (FVOCI), and financial assets measured at amortized cost (AC).

Contractual cash flows characteristics test

The Fund assesses whether cash flows from the financial asset represent solely payments of principal and interest (SPPI) on the principal amount outstanding. Instruments, with cash flows which are not SPPI, are classified as at FVTPL.

In making this assessment, the Fund determines if contractual cash flows are consistent with a basic lending arrangement (i.e., interest includes consideration only for the time value of money, credit risk and other basic lending risks and costs associated with holding the financial asset for a particular period of time).

Business model assessment

The Fund's business model does not depend on the management's intentions for an individual instrument. Rather, it refers to how it manages its group of financial assets in order to generate cash flows (i.e., collecting contractual cash flows, selling financial assets or both).

Relevant factors, considered by the Fund in determining the business model for a group of financial assets, include how the performance of the business model, and financial assets held within that business model, are evaluated and reported to the Fund's key management personnel. The Fund also considers risks that affect the performance of the business model (and the financial assets held within that business model), how these risks are managed, and how managers, if any, of the business are compensated.

As at December 31, 2024 and 2023, based on the results of the contractual cash flows characteristics test and business model assessment, the Fund classified its cash and cash equivalents, due from broker, dividends receivable, and advances to affiliates as financial assets at amortized cost, and its financial assets held for trading as financial assets at FVTPL.

As of December 31, 2024 and 2023, the Fund had no financial assets at FVOCI.

Financial assets at amortized cost

A debt financial asset is measured at amortized cost if (i) it is held within a business model, which objective is to hold financial assets in order to collect contractual cash flows, and (ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding. These financial assets are initially recognized at fair value, plus directly attributable transaction costs, and subsequently measured at amortized cost using the effective interest rate (EIR) method, less any impairment in value. Amortized cost is calculated by taking into account any discount or premium on the acquisition and fees and costs which are integral part of the EIR. The amortization is included in Interest income, in the statement of comprehensive income, and is calculated by applying the EIR to the gross carrying amount of the financial asset.

Financial assets at FVTPL

A financial asset is classified as at FVTPL if its cash flows are not SPPI and/or it is held under a business model which objective is to sell financial assets. The Fund may designate at FVTPL, a financial asset that would otherwise qualify to be classified as at amortized cost or as at FVOCI, if doing so eliminates or significantly reduces an accounting mismatch. Financial assets at FVTPL are recorded in the statement of financial position at fair value, with changes in the fair value included under the Trading Gains (losses) - net account, in the Statement of comprehensive income. Dividend income is reported in the statement of comprehensive income, under "Dividend income", when the right to receive the payment is established.

Financial liabilities at amortized cost

Issued financial instruments or their components, which are not designated as at FVTPL, are classified as financial liabilities at amortized cost. After initial measurement, financial liabilities at amortized cost are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are integral parts of the EIR. This policy applies to accounts payable and to other accrued expenses of the Fund.

As of December 31, 2024 and 2023, the Fund had no financial liabilities at FVTPL.

Derecognition of Financial Assets and Liabilities

Financial asset

A financial asset is derecognized when:

- the right to receive cash flows from the asset expires; or
- the Fund retains the right to receive cash flows from the asset, but assumes an obligation to pay them in full without material delay to a third party, under a 'pass-through' arrangement; or

- the Fund transfers its right to receive cash flows from the asset and either (a) transfers substantially all the risks and rewards of the asset or (b) neither transfers nor retains the risk and rewards of the asset but transfers the control over the asset.

Financial liability

A financial liability is derecognized when the obligation, under the liability, is discharged, cancelled or expires.

Impairment of Financial Assets

Expected credit loss

The Fund records ECL for all loans and other debt financial assets, not classified as at FVTPL. ECL represents credit loss that reflects an unbiased and probability-weighted amount, which is determined by evaluating a range of possible outcomes, the time value of money, reasonable and supportable information about past events, current conditions and forecasts of future economic conditions. ECL allowances are measured at an amount equal to either (i) 12-month ECL or (ii) lifetime ECL for those financial instruments which experience significant increase in credit risk (SICR) since initial recognition (30 days but less than 90 days past due) or in credit-impaired. The 12-month ECL is the portion of the lifetime ECL that results from default events of a financial instrument, which are possible within 12 months after the reporting date. Lifetime ECL are credit losses, resulting from all possible default events over the expected life of the financial asset.

Staging assessment

For non-credit-impaired financial instruments:

- Stage 1 comprises all non-impaired debt financial assets which have not experienced an SICR since initial recognition. The Fund recognizes a 12-month ECL for Stage 1 debt financial assets.
- Stage 2 comprises all non-impaired debt financial assets which have experienced an SICR since initial recognition. The Fund recognizes a lifetime ECL for stage 2 debt financial assets.

For credit-impaired financial instruments:

- Financial instruments are classified as Stage 3 when there is objective evidence of impairment. The Fund considers a financial asset as in default when contractual payments are ninety (90) days past due. However, in certain cases, the Fund may also consider a financial asset to be in default when an internal or an external information indicates that the Fund is unlikely to receive outstanding contractual amounts in full before taking into account any credit enhancements held by the Fund.

For due from broker, the Fund applies the simplified approach in calculating ECL, since those receivables arise from transaction within the scope of PFRS 15 and does not contain significant financing component. Under the simplified approach, the Fund does not track changes in credit risk, but instead recognizes a loss allowance, based on lifetime ECLs at each reporting date.

Write-off

A financial asset is written off when there is no reasonable expectation of recovering its contractual cash flows.

Trading gains (losses)

Trading gains (losses) represents results arising from trading activities, including all gains and losses from changes in fair values of financial assets held for trading.

Gains and losses on disposals of financial instruments at FVTPL are calculated using weighted average method and represent the difference between an instrument's initial carrying amount and disposal amount.

Interest income

Interest income is recognized in the statement of comprehensive income once accrued, taking into consideration the effective yield of the asset.

Dividend income

Dividend income is recognized when the Fund's right to receive payment is established.

Expense Recognition

Expenses are recognized when it is probable that a decrease in future economic benefits related to a decrease in an asset or an increase in liability occurs, and the decrease from economic benefits can be measured reliably.

Management and Administration Fees

Management fees are being charged to the Fund as a percentage of its average net asset value, and are recognized through the accrual method of accounting.

Income Taxes

Income tax, on profit or loss for the year, comprises of current taxes arising from passive income that is recognized in profit or loss. Current tax assets and liabilities, for the current and prior periods, are measured at the amount expected to be recovered from or paid to the taxation authorities. Tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted in accordance with Philippine laws, as at the reporting date. With the applicable taxes on the Fund's revenue and income, there are no temporary differences that results in recognition of deferred tax assets and liabilities.

Equity

Capital stock is measured at par value for all shares issued. When shares are sold at a premium, the difference between the proceeds and the par value is credited to the 'Additional paid-in capital' account in the statement of financial position.

Retained Earnings

Retained earnings represent the accumulated income of the Fund less dividends to stockholders.

Treasury Shares

Own equity instruments, reacquired treasury shares, are recognized at cost and deducted from equity. No gain or loss is recognized in the statement of comprehensive income on the purchase, sale, issue or cancellation of the Fund's own equity instruments. Any difference between the carrying amount and the consideration is recognized in equity.

Net Asset Value (NAV) Per Share

NAV per share is computed by dividing net assets (total assets less total liabilities) by the total number of shares issued and outstanding as at the reporting date.

Earnings Per Share (EPS)

Basic EPS is calculated by dividing net investment income by the weighted average number of shares outstanding during the period after giving retroactive effect to stock dividends declared and stock rights exercised during the period, if any. The Fund does not have dilutive potential common shares as of December 31, 2024, 2023 and 2022.

Dividend Distribution

Dividend distributions are at the discretion of the Fund. A dividend distribution to the Fund's shareholders is accounted for as a deduction from retained earnings. A proposed cash dividend is recognized as a liability in the period in which it is approved by the Fund's Board of Directors (BOD). A stock dividend is recognized as an addition to capital stock.

Segment Reporting

For management purposes, the Fund is organized into one main operating segment. It invests in equity securities and unit investment trust funds. All of the Fund's activities are interrelated and interdependent. Accordingly, all significant operating decisions are based upon the analysis of the Fund as one segment. The financial results from this segment are equivalent to the financial statements of the Fund as a whole.

Provisions

Provisions are recognized when the Fund has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Contingencies

Contingent liabilities are not recognized in the financial statements but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements, but are disclosed when an inflow of economic benefits is probable.

Events after the Reporting Date

Any post year-end event, up to the date of approval by the BOD, of the financial statements that provide additional information about the Fund's position at the reporting date (adjusting event), is reflected in the financial statements. Post statement of financial position date event that is not an adjusting event, if any, is disclosed when material to the financial statements.

3. Significant Accounting Estimates and Judgments

The preparation of the financial statements, in compliance to PFRS Accounting Standards, requires the Fund to make use of estimates, assumptions and judgments which affect the reported amounts of assets, liabilities, income and expenses and the disclosures on contingent assets and liabilities, if any. Future events may occur which can cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Fund does not have significant accounting judgments or estimates which has the most significant effect on the amounts recognized in the financial statements.

4. Financial Risk Management Objectives and Policies

Governance Framework

The Fund established a risk management function with clear terms of reference and with the responsibility for developing policies on market, credit, liquidity and operational risks. It also supports the effective implementation of the Fund's risk management policies.

The policies define the Fund's identification of risks and its interpretation to ensure the appropriate quality and diversification of assets to the corporate goals and to specify reporting requirements.

Risk Management Framework

The Fund's risk management personnel develops and implements certain minimum stress and scenario tests for identifying the risks to which the Fund is exposed, and quantifies their impact on the volatility of economic capital. The results of the tests, particularly the anticipated impact to the statement of financial position and to the statement of comprehensive income, are reported to the Fund's management.

Management then considers the aggregate impact of the overall capital requirement revealed by the stress test to assess how much capital is needed to mitigate the risk of insolvency to a selected remote level.

The Fund's objective is to achieve medium-term capital growth through investing in a selection of investment securities. The Fund seeks to provide a high level of current income, consistent with the preservation of capital and liquidity by observing regulatory guidelines and applying risk-mitigating controls.

All investment securities present a risk of loss of capital. The Investment Manager manages this risk through a careful selection of equity and debt securities within specified limits. The Fund's overall market positions are monitored on a daily basis by the Fund's Investment Manager and are reviewed on a quarterly basis.

Regulatory Framework

The operations of the Fund are subject to the regulatory requirements of the SEC and the Bureau of Internal Revenue (BIR). Said regulations do not only prescribe approval and monitoring of activities but also impose certain restrictive provisions (e.g., investment portfolios, capital requirements, etc.).

Financial Risk

The Fund is exposed to financial risks through its holdings of financial instruments. The most significant components of this financial risk are credit risk, liquidity risk and market risk.

The market risk, the Fund primarily faces due to the nature of its investments, is the equity price risk.

Credit Risk

Credit risk is the risk of financial loss to the Fund if the counterparty to a financial instrument fails to meet its contractual obligations.

Maximum exposure to credit risk before collateral held or other credit enhancements

The carrying values of the Fund's financial assets, as reflected in the statement of financial position and the related notes, represent the financial assets' maximum exposure to credit risk. As of December 31, 2024 and 2023, all of the Fund's debt financial assets at amortized cost are Stage 1 financial assets. The ECL for the Fund's cash in bank and receivables is not material.

As of December 31, 2024 and 2023, the Fund does not hold collateral on its financial assets.

Concentration of credit risk

The Fund monitors concentration of credit risk by industry. An analysis of concentrations of credit risk at the reporting date is shown below:

	2024		
	Cash in bank	Receivables	Total
Corporate:			
Financial institutions	₱952,557	₱—	₱952,557
Services	—	812,258	812,258
Total	₱952,557	₱812,258	₱1,764,815

	2023		
	Cash in bank	Receivables	Total
Corporate:			
Financial institutions	₱928,005	₱97	₱928,102
Services	—	723,878	723,878
Industrial	—	156,000	156,000
Total	₱928,005	₱879,975	₱1,807,980

As of December 31, 2024 and 2023, the Fund has no impaired receivables.

The Fund adopted the internal credit rating process of its investment manager in assessing the credit quality of the Fund's investments.

Cash in bank and receivables are considered high grade since these are low risk investments and the counterparties have no history of default.

Liquidity Risk

Liquidity or funding risk is the risk that the Fund will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result either from the inability to sell financial assets quickly at their fair values; the counterparty fails on the repayment of a contractual obligation; or the inability to generate cash inflows as anticipated.

The Fund's liquidity risk is managed by holding sufficient amounts of liquid assets and assets with appropriate credit quality to ensure that short-term funding requirements are met. As part of the Fund's risk management, cash in bank is available on demand, receivables are collected monthly and financial assets at FVTPL can be readily disposed of whenever the need for funding arises. The Fund's total financial liabilities mature within three months and are non-interest-bearing.

Market Risk

Market risk is the risk of change in the fair value of financial instruments from fluctuations in market interest rates (fair value interest rate risk) and market prices (equity price risk), whether such change in the price is caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market.

The Fund's market risk policy requires it to manage such risk by setting and monitoring objectives and constraints on investment, diversification plan and limits on investments.

The Fund structures the levels of market risk it accepts through a market risk policy that determines what constitutes market risk for the Fund; the basis used to determine the fair value of financial assets and liabilities; the diversification benchmarks per type of instrument; the net exposure limit of each counterparty or group of counterparties and industry segments; the reporting of market risk exposures and breaches to the monitoring authority; the monitoring of compliance with market risk policy and the review of such policy for pertinent and changing environment.

Equity price risk

The Fund's equity price risk emanates from its securities in proprietary accounts classified as financial assets at FVTPL. The Fund measures the sensitivity of its quoted equity securities with the fluctuations in the Philippine Stock Exchange index (PSEi).

The following tables set forth the impact of changes in the PSEi of the Fund's trading gains or losses on its quoted equity securities as of December 31, 2024 and 2023.

As a percentage of the Fund's unrealized trading gains (losses) in equity securities at FVTPL	18.13%	(18.13%)

The sensitivity analyses above show the effect of assumed changes in PSEi on the trading gains (losses) for one year, based on the beta of equity securities at each reporting date. The sensitivity of trading gains (losses) is calculated by revaluing the market rate using the beta of equity securities at the reporting date for the effects of assumed changes in PSEi.

The Fund measures the sensitivity of its investments in UITF through fluctuations in NAV per share.

The data below sets forth impacts of reasonably possible changes in NAV per share of the Fund's investments in UITF:

	Changes in price quotation (in basis points)			
	+ 100	-100	+ 50	- 50
Change in equity

5. Fair Value of Financial Assets and Liabilities

As of December 31, 2024 and 2023, all of the financial assets and liabilities of the Fund have carrying amounts which approximate their fair values.

The methods and assumptions used by the Fund in estimating fair values of financial instruments are:

Cash in bank and receivables - Carrying amounts approximate their fair values due to the relatively short-term maturities of these instruments.

Financial assets at FVTPL -The fair values are based on closing prices, published by the PSE, for quoted equity securities and the published NAV per unit for investments in UITF.

Accounts payable and accrued expenses - Accruals for professional, management, administration fees and other liabilities have carrying amounts which approximate their fair values as they are short-term in nature.

The following tables summarize the fair values of financial assets, analyzed based on the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation technique for which the lowest level input, significant to the fair value measurement, is directly or indirectly observable.
- Level 3 - Valuation technique for which the lowest level input, significant to the fair value measurement, is unobservable.

The total number of stockholders of the Fund are 5,322 and 5,345 as of December 31, 2024 and 2023, respectively.

Determination of retained earnings available for dividend declaration

Retained earnings of the Fund amounted to ₱83.73 million and ₱63.81 million as of December 31, 2024 and 2023, respectively. Retained earnings available for dividend declaration is determined by the Fund in accordance with 2023 SEC Memorandum Circular No. 16 and 2001 SEC Memorandum Circular No. 11. Under the said SEC Circulars, dividends shall be declared out of unrestricted retained earnings, adjusted for unrealized items which are considered not available for dividend declaration. As of December 31, 2024, the total unappropriated retained earnings available for dividend declaration amounted to ₱9.80 million. The total unappropriated retained earnings available for dividend declaration was nil as of December 31, 2023.

The Fund's declaration of cash or stock dividends in the future will depend on the Fund's investment requirements, and unrestricted retained earnings, at the relevant time. These are the only restriction which may limit the Fund's ability to pay, declare cash or stock dividends.

Capital Management

The primary objective of the Fund's capital management is to ensure that its funds are invested in outlets that deliver superior returns, with a relatively low degree of volatility and high level of capital preservation, in order to have a more responsive NAV per share, and to improve its share price in the stock exchange.

The Fund manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Fund may adjust the dividend payment to shareholders or issue new shares. No changes were made in the objectives, policies or processes in 2024 and 2023.

The Fund considers its total equity as reported in the statements of financial position as capital.

Minimum Paid-in Capital Requirement

Section 13 of the Revised Investment Company Act requires every registered investment company to maintain a paid-in capital, which shall remain unimpaired at all times, of no less than ₱50.00 million.

As of December 31, 2024 and 2023, the Fund is compliant to the above externally imposed capital requirement.

11. Basic and Diluted Earnings (Losses) Per Share

Basic and diluted earnings (losses) per share amounts were computed as follows:

15. Maturity Analysis of Assets and Liabilities

All assets and liabilities of the Fund are due to be realized and to be settled within one year from the reporting date.

16. Provision for Income Tax

Provision for income tax pertains to the 20.00% final withholding taxes on gross interest income from cash in bank. None of the other income of the Fund is subject to the Regular corporate income tax (RCIT) rate of 25% nor minimum corporate income tax (MCIT) on modified gross income, which was increased to 2.0% from 1.0% effective July 1, 2023. The tax regulations also allow a NOLCO to be applied against taxable income. The MCIT and NOLCO may be applied against the Company's income tax liability and taxable income, respectively, over a three-year period from the year of inception. Pursuant to the provisions of Section 244 of National Internal Revenue Code (NIRC), as amended, the regulation is further amended to implement Section 4 of Republic Act No. 11494, otherwise known as "Bayanihan to Recover as One Act", which allows businesses or enterprises to carry over NOLCO for taxable years 2020 and 2021 for the next 5 years.

Details of the Fund's NOLCO, which is available for offset against future taxable income, follow:

Inception Year	Amount	Expired	Balance	Expiry Year
2020	₱4,842,320	—	₱4,842,320	2025
2021	4,815,011	—	4,815,011	2026
2022	4,961,018	—	4,961,018	2025
2023	5,135,662	—	5,135,662	2026
2024	5,356,899	—	5,356,900	2027
	₱25,110,910	—	₱25,110,910	

The 2020 NOLCO is included in the 2021 filed annual income tax return

The Fund does not recognize deferred tax asset on NOLCO since management believes that the benefit from such asset will not be realized prior to its expiration given the Fund's sources of income.

The reconciliation of income tax computed at the statutory tax rate to provision for income tax follows:

	2024	2023	2022
Statutory income (loss) tax	₱4,978,775	₱3,716,809	(₱1,515,376)
Tax effect of:

Non-deductible expenses	154,681	190,188	212,155
Tax-paid income	(8)	(287)	(579)
	₱30	₱1,147	₱2,317

17. Investment Management Agreement

The Fund's investment manager is ABCIC. The Fund is charged of management fee of 1.00% per annum of the average net asset value of the Fund plus reimbursement of operating expenses, paid or incurred by ABCIC in the performance of its service as an investment manager.

In 2024, 2023 and 2022, the Fund recognized management and administration fees amounting ₱2.42 million, ₱2.11 million and ₱1.97 million respectively (see Note 18).

Management fees payable amounted to ₱0.63 million and ₱0.45 million as of December 31, 2024 and 2023, respectively (see Note 18).

18. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions or the parties are subject to common control or common significant influence, referred to as affiliates. Related parties may be individuals or corporate entities.

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the Fund, directly or indirectly. The Fund considers directors to constitute key management personnel.

Report Boundary: Legal entities (e.g. subsidiaries) included in this report*	This Sustainability Report covers only Filipino Fund, Inc. (“FFI”), as it has no subsidiaries.
Business Model, including Primary Activities, Brands, Products, and Services	FFI’s business operations are limited to the regular trading of its shares in the Philippine Stock Exchange (“PSE”) and the maintenance of its investment portfolio. FFI invests in a mix of Unit Investment Trust Funds (“UITFs”) and local equities.
Reporting Period	January to December 2024
Highest Ranking Person responsible for this report	Andrew Jason G. Gaisano – President

*If you are a holding company, you could have an option whether to report on the holding company only or include the subsidiaries. However, please consider the principle of materiality when defining your report boundary.

Materiality Process

Explain how you applied the materiality principle (or the materiality process) in identifying your material topics. ¹⁴
<p>As explained, FFI’s business operations are limited to the regular trading of its shares in the Philippine Stock Exchange (“PSE”) and the maintenance of its investment portfolio. FFI, therefore, identified material topics by assessing what may reasonably be considered important in reflecting the organization’s economic, environmental, and social impacts, if any, and in the decision-making of its stakeholders.</p>

¹⁴ See [GRI 102-46](#) (2016) for more guidance.

ECONOMIC

Economic Performance as of December 31, 2024

f. Investments to community (e.g. donations, CSR)	200,000	PhP

What is the impact and where does it occur? What is the organization's involvement in the impact?	Which stakeholders are affected?	Management Approach
FFI's business operations are limited to the regular trading of its shares in the Philippine Stock Exchange ("PSE") and the maintenance of its investment portfolio. The post-restructuring investment objective of the Fund is to provide original FFI investors with a repackaged investment, which would now have a more responsive net asset value per share corresponding to an improved share price in the stock exchange. The investment objective of FFI is to provide its investors with an investment that corresponds to an improved share price in the PSE.	Stockholders	<p>FFI has engaged a fund manager, AB Capital & Investment Corporation ("ABCIC"), which possesses the necessary experience, training, skills and expertise in assessing and managing financial investments</p> <p>FFI is likewise prepared to revise and adjust its strategy to adopt to changes in market conditions. Unlike pure equity funds (which suffer when the stock market is in a downtrend) or pure fixed income funds (which miss out when the stock market booms or suffer when interest rates rise quickly) or even balanced funds (which, for some, have to maintain a certain ratio or have equity limits), FFI's strategy is able to adjust more freely to market conditions.</p>

What are the Risk/s Identified?	Which stakeholders are affected?	Management Approach
<p>FFI is primarily exposed to market risk.</p> <p>Market risk is the risk of the change in the fair value of the financial instruments due to fluctuations in market interest rates (fair value interest risk) and market prices (equity price risk), which may be caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market. Other than market risk, the Fund may also be exposed to credit risk and liquidity.</p> <p>Credit risk is the financial loss to FFI if the counterparty to a financial instrument fails to meet its contractual obligations.</p> <p>Liquidity risk or funding risk is the risk that FFI will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity issues may result from inability to sell financial assets quickly at their fair value; a counterparty failing on repayment of a contractual obligation, or the inability of FFI to generate cash inflows as anticipated.</p>	<p>Stockholders</p>	<p>To mitigate market risks, FFI structures the level of market risk it accepts through a market risk policy that determines what constitutes acceptable market risk for the Fund; the basis used to determine the fair value of the financial assets and liabilities; the asset allocation and duration limit based on the Fund's chosen benchmark; diversification benchmarks by type of instrument; the net exposure limits by each counterparty or group of counterparties and industry segments; reporting of market risk exposure and breaches to the monitoring authority; monitoring compliance with market risk policy and review of market risk policy for pertinence and changing environment.</p> <p>To mitigate credit risks, FFI invests in unit investment trust funds that is invested in short term deposits listed equities and unit investment trust funds where the risk of default is considered minimal.</p> <p>To mitigate liquidity risks, all financial assets and financial liabilities of FFI are to be realized and settled within one year from the respective statement of financial position dates. FFI has no interest-bearing financial liabilities. Hence, the carrying values of FFI's financial liabilities approximate their undiscounted contractual future payments.</p>
What are the Opportunity/ies Identified?	Which stakeholders are affected?	Management Approach

2025 presents opportunities for a recovery in equity markets with inflation subsiding globally and central banks expected to unwind the unprecedented monetary policy tightening they have implemented over the past two years. Investor appetite for Philippine equities will be driven by attractive valuations and healthy earnings growth from corporates.	Stockholders	Coming from a defensive posture in 2024, the Fund was able to protect capital and generate profits despite the lackluster performance of local equities. In 2025, the strategy aims to recalibrate positioning in order to adequately capture the expected upside from the market by optimizing exposure to cash and concentrating positions in the preferred high-quality companies of the portfolio.

Financial investments (such as investments in equities and UITFs).	FFI's limited operations and services contribute to SDG 1 (No Poverty) by working to increase the financial resources of stockholders and promoting economic growth.	The increase in financial resources of stockholders may increase the gap between the marginalized sector and the stockholders. No trickle down to the lowest rungs of society may occur.	FFI, being a publicly listed company, continues to make its shares available and accessible to the public.
